

Travel & Participant Information

IAS / South America | 2027 Mathematics Schools in Argentina

Buenos Aires & La Plata | November 9, 2026

Programs at a Glance

School 1: *Higher Categories and Applications*

- July 5–9, 2027: Universidad de Buenos Aires (UBA), Buenos Aires.
- July 12–16, 2027: Universidad Nacional de La Plata (UNLP), La Plata.

School 2: *The Geometry of Singular Sets: School on Geometric Measure Theory, Harmonic Analysis and PDE*

- August 2–13, 2027: Universidad de Buenos Aires, Buenos Aires.

Contact	Name/email

Buenos Aires host	Guillermo Cortiñas | gcortinas@ias.edu
La Plata host	Gisela Tartaglia | gtartaglia@ias.edu

1. Visa & Entry

Plan ahead. Each participant must meet Argentina's entry requirements.

- Consult the Argentine consulate serving your place of residence and your university's international office well in advance to confirm any visa or other entry authorization needed to attend the program, passport-validity requirements, and processing times.
- *IAS / South America* does not provide visa advice or support. Participants are responsible for all applicable visa, entry authorization, and visa assistance fees.

Item	Information
Official visa reference	Argentina immigration visa information (official)
Passport/entry documents	Confirm the required entry documents with the consulate. Acceptance letters confirm admission only.
Optional U.S. assistance	CIBT Visas | 1-800-392-2428. Optional third-party service, arranged independently at your expense.

2. Funding & Travel

IAS / South America welcomes applicants from all regions. Some subsidies are available; acceptance materials will confirm any travel, accommodation, and per diem support awarded.

Topic	Information
Travel booking	Instructions for arranging travel through the IAS-designated travel agency will accompany your acceptance materials.
Arrival/departure window	**School 1:** Arrive July 4 and depart July 17, 2027. **School 2:** Arrive August 1 and depart August 14, 2027.
Meals	Breakfast and weekday lunches are included. Selected group dinners are also planned.
Per diem	Where awarded, this daily payment covers meals not otherwise provided, airport transfers, and routine local transportation. Per diem will be distributed upon arrival in Argentina. Acceptance materials will confirm the amount and eligible days.
Additional expenses	*IAS / South America* will not provide any additional advances or payments for incidental expenses.
Travel changes	For participant-requested changes, contact the IAS-designated travel agency. For airline delays or cancellations, contact either the airline or the IAS-designated travel agency.

3. Housing & Local Transportation

School/location	Arrival (2027)	Departure (2027)
School 1: Buenos Aires	July 4	July 11
School 1: La Plata	July 11	July 17
School 2: Buenos Aires	August 1	August 14

Accommodation information. Participant accommodations are planned in shared triple rooms. Details and approved dates will be sent with acceptance materials. Any accommodations beyond the dates listed above will be the sole responsibility of the participant.

Airport transfers and local travel: Details will be confirmed closer to program dates.

- *School 1 only: Group transportation from Buenos Aires to La Plata is planned for Sunday, July 11.*

4. Health & Safety

Travel Medical Insurance

Foreign non-resident participants should arrange medical/health coverage valid in Argentina for their entire stay and carry proof of coverage. Current consular guidance exempts Argentine citizens, including those living abroad, as well as foreign permanent residents of Argentina. Confirm requirements for your citizenship, residency status, and purpose of travel with the Argentine consulate, and recheck before departure.

Packing Guidance

July and August are winter in Argentina. In Buenos Aires and La Plata, average daytime highs range from approximately 14–18°C (57–64°F), with overnight lows around 5–9°C (41–48°F).

5. Academic Preparation

The schools are designed for advanced graduate students and postdoctoral scholars in mathematics.

Topic	Information
School 1 program preparation and schedule	*Higher Categories and Applications* includes three online preparatory courses in June 2027, followed by two weeks of in-person minicourses in Buenos Aires and La Plata. Visit the program webpage for preparation details, the schedule, and updates.
School 2 program schedule	*The Geometry of Singular Sets* includes minicourses, plenary lectures, talks, and poster sessions, with time for independent research and informal discussion. Visit the program webpage for the detailed schedule and updates.
Preparation resources	Current topics, abstracts and schedules: *Higher Categories and Applications*; *The Geometry of Singular Sets*.
Attendance/participation	Participants receiving IAS support are expected to attend both weeks; shorter stays for accepted self-funded participants require advance confirmation.
Recording/photography	Lecture filming is planned, subject to speaker permission, and selected events may be photographed. Live streaming and public release are not guaranteed.
