

# IAS/Park City Mathematics Institute

Institute for Advanced Study, 1 Einstein Drive, Princeton, NJ 08540

Welcome to PCMI!

Whether you are a program participant, a lecturer, an organizer or a visitor, the information in this document is important to your PCMI experience.

Please take the time to read through it, and bring it to Park City for reference during the PCMI Summer Session.

If you have any additional questions, feel free to contact our office at [pcmi@ias.edu](mailto:pcmi@ias.edu).

Sincerely,

*Dena Vigil*, Program Officer

## How PCMI Works

There are six distinct programs:

- Graduate Summer School (GSS)
- Research Program in Mathematics (RP)
- Teacher Leadership Program (TLP)
- Undergraduate Faculty Program (UFP)
- Undergraduate Summer School (USS)
- Workshop on Rehumanizing Mathematics (two weeks)

Each program follows its own series of daily courses, lectures and seminars designed and delivered by leading experts in the field.

Interaction is also a key component of the PCMI Summer Session, and there will be many opportunities for you to interact with participants from all of the programs. To that end, most of the courses and seminars are open to all participants (except where noted on the daily schedule).

Cross Program Activities are offered two or three times each week in addition to the regular course schedule. Although your main focus will be your own program, you are strongly encouraged to take part in the Cross Program Activities. Some deal with educational issues and others deal with general mathematical content.

In addition to attending courses, seminars, and activities at PCMI, you should plan to take advantage of the Park City area and the diverse recreational and cultural opportunities it offers. Weekends are free of scheduled activities for this reason.

## Arrival & Check-in

Participants attending the entire three weeks should plan to arrive in Park City on **Sunday, July 17**. It takes about 45 minutes to get to Park City after you land in Salt Lake City and board the shuttle. On July 17, shuttle buses between the airport and the Prospector will leave the airport every hour beginning at 11:00am and continuing until 11:00pm.

Pick up your ID badge and program materials at the PCMI registration desk in the Prospector Conference Center when you arrive.

Arriving **after July 17**, please consult the information box on the right to determine when and how to pick up your ID badge and program materials →

**Housing check-in:** Housing that was funded and arranged by PCMI is located at the Prospector Conference Center and in surrounding condo buildings that are managed by other companies. **You will receive your housing assignment in a separate email in late-June.**

On July 17: Check-in for ALL PCMI-funded housing, regardless of location (except for DoubleTree & Sheraton), is in the front lobby of the Prospector Conference Center. After July 17, refer to the instructions sent to you in your housing assignment email.

**At check-in, you will need to present your personal credit card to cover any incidental charges or damages during your stay. Your credit card will not be charged if you do not incur any incidental charges or damages.**

## Getting Around Park City

**Walking** – Park City is a walking town, with a pedestrian walkway that winds from the Prospector Square neighborhood up to Main Street. The distance is about one mile.

Grocery stores and small eateries are located just a 10-minute walk from the Conference Center. Medical Services and a pharmacy are also located nearby.

**Public Transport – Park City Transit** is a free bus service that covers Park City and Kimball Junction all day and into the evening. Bus stops are located along the side and front of the Prospector Conference Center, and the main bus depot is located in town, one block behind Main Street. Buses leave every 10-15 minutes from any given stop. Schedules are available online at [www.parkcitytransit.org](http://www.parkcitytransit.org).

Some materials are non-circulating and must remain in the library at all times.

All registered participants receive lecture notes and other course materials free of charge; materials are distributed by the course Teaching Assistant. If extra copies are needed, please see the designated TA – he or she will place an order for more copies.

Lecture notes and problem sets for both the Undergraduate Summer School and the Graduate Summer School will be available to participants during the Summer Session on the PCMI website and the PCMI Event App.
