

Computing Services for IAS Families

WELCOME
2017–2018

IAS Computing is pleased to offer the following services to all members of the IAS community

- High-speed Internet/Internet2 access
- Access to the wired and wireless network in Member Housing
- Access to the eduroam secure wireless network from campus or housing, which offers access to digital library resources
- Support for getting devices connected and configured, and assistance in ensuring fully functional work-from-home setups
- Access to public computing terminals and workstations around campus
- Access to a network printer in the housing activities building
- Ability to participate in IT training courses offered on campus
<https://www.ias.edu/campus/training>
- Improved in-building cellular reception via our campus-wide cellular DAS network
- Inclusion in the campus emergency notification system

For assistance with any IT-related questions or problems, please contact IAS Computing as follows:
