After your arrival you will meet personally with the Comptroller's Office to complete the required tax documents. **We will be unable to properly schedule your appointment without this historical information.** Please complete as much as you can, and any questions concerning your tax status may be addressed during your appointment.

Country of Tax Residence

Please note the country to which you paid taxes immediately before traveling to the United States.

Number of Days in the US

For each year listed, please include the number of days that you were physically present in the United States. It is preferable to list individual trips separately unless the purpose of each trip, as well as your nonimmigrant status, was exactly the same. In addition, please estimate the number of days that you expect to be present in the United States during the current calendar year. Although your plans may not have been finalized, your best estimate is sufficient for the completion of this section.

Nonimmigrant Status

Please list your nonimmigrant status for each trip to the US; e.g. B-1 business, B-2 tourist, F-1 student, H-1B temporary worker, J-1 exchange visitor, etc.

Activity

Please indicate the reason for each visit; e.g. student, visiting professor, conference attendee, vacationer, etc.

Funding Type and Source

For each trip, please list the type of funding that you received. It is important to differentiate between a scholarship, or fellowship grant, and a wage. **Grants** are issued to support scholars, and no services or work is expected in return. **Wages** are provided as compensation for services rendered, e.g. teaching. The Institute, for example, will pay you a fellowship grant.

In this same section please indicate the source of funding, including the name of the institution from which the funding originated, as well as the country.
