

RE-IMAGINING THE THE SOCIAL SCIENCES IN THE AGE OF AI

A CROSS-DISCIPLINARY CONVERSATION

WEDNESDAY

MAR 4

5:30 P.M.

Wolfensohn Hall
Institute for Advanced Study

Discovering Rules of Mate Choice and the Structure of Dating Markets

ELIZABETH BRUCH
University of Michigan

Moderated by Jacob Foster,
University of California, Los Angeles

Human Behavior as the Next Frontier for AI

THOMAS GRIFFITHS
Princeton University

Co-organized by the School of Mathematics and the School of Social Science, this public event will feature two short talks about the transformational possibilities and provocative challenges that emerge from dialogue between the social sciences and AI. The talks will be followed by a moderated conversation with the speakers and a Q&A with the audience.

ORGANIZERS:

Sanjeev Arora
Distinguished Visiting Professor
IAS School of Mathematics

Didier Fassin
James D. Wolfensohn Professor
IAS School of Social Science

Jacob Foster
University of California,
Los Angeles

Marion Fourcade
Visiting Professor
