

Summer Program in Social Science

An International and Interdisciplinary Initiative

Swedish Collegium for Advanced Study, Uppsala

27 June - 1 July 2017

THE SUMMER PROGRAM IN SOCIAL SCIENCE

Coordinator of the Program: Didier Fassin

Coordinator of the Swedish Collegium session: Björn Wittrock

The Swedish Collegium for Advanced Study, Uppsala in collaboration with the School of Social Science at the Institute for Advanced Study, Princeton, and the École des Hautes Études en Sciences Sociales, Paris, is delighted to host the Summer Program in Social Science for 2017. This innovative program runs in a three-year cycle, with the first two weeks having taken place the first year in Princeton, one week in 2016 in Paris, and one week the third year in Uppsala (26-30 June, 2017). It has been designed specifically for junior scholars from Africa, the Middle East, and Latin America, with the purpose of constituting a genuinely international and interdisciplinary network of social scientists from regions of the world traditionally not well-represented in the sponsoring institutions.

Fellows participating in the Summer Program in Social Science each have their own research project, which they pursue during the period of the program and present at various stages. The overall ambition of the Summer Program in Social Science is to enrich and expand the realm of the social sciences through the confrontation of different intellectual traditions and perspectives, to facilitate and enhance the dialogue between various scientific disciplines and communities, and to strengthen international networks between the global South and global North.

Professor Didier Fassin, at the Institute for Advanced Study, leads the Summer Program in Social Science. Professors Björn Wittrock and Ash Amin are the corresponding coordinators at the Swedish Collegium for Advanced Study. Professors Nancy L. Green and Denis Cogueau are the corresponding coordinators at the École des Hautes Études en Sciences Sociales. The program is supported by the Riksbankens Jubileumsfund, the Wolfensohn Family Foundation, the Labex Tepsis, and the three participating institutions.
